The Jelly Effect: How to Make Your Communication Stick Andy Bounds

How effective is the communication you experience every day? How often have you been bored during a presentation? Failed to win a piece of business that, deep down, you know you should have won? Had a tedious, pointless networking conversation?

Countless times, no doubt. Too much information and not enough relevance is a problem that pervades almost all business communication. You see, the way many people communicate is like filling a bucket with jelly, flinging it at their audience, and hoping some of it sticks. It's ineffective, it's irritating and, above all, it's very messy.

So what's the answer? More relevance and a lot less jelly. The Jelly Effect teaches you simple, memorable and costless ways to win more attention and more business. Imagine how effective you'd be if you communicated only what was relevant 100 percent of the time. You would be better at talking to others, presenting, networking and selling. You would excel in interviews, meetings and pay-rise discussions. The benefits would be endless.

The Jelly Effect shows you how to raise your game to a different level. You'll never fling another bucket of jelly again...
