Harry S. Truman and the Founding of Israel Michael T. Benson

Harry S. Truman sensed something profound and meaningful in the Jewish restoration to Palestine, something which transcended other considerations. As the president recorded in his *Memoirs*, the Palestine question was a basic human problem. In the end, Truman was willing to go against the current of his most trusted foreign policy advisers, who were absolutely opposed to the establishment of a Jewish state in the Middle East. These advisers argued that however humanitarian a Jewish homeland might seem, such a proposition posed a real risk to American interests in the Near East and to United States national security in the late 1940s. Despite their continued opposition, Truman stood his ground and maintained that he would decide the entire issue based on what he thought was right. Of interest to historians, and students of Israel and of the U.S. presidency.
