Historical GIS: Technologies, Methodologies, and Scholarship (Cambridge Studies in Historical Geography) Gregory, Ell

Historical GIS is an emerging field that uses Geographical Information Systems (GIS) to research the geographies of the past. Ian Gregory and Paul Ell's study, first published in 2007, comprehensively defines this field, exploring all aspects of using GIS in historical research. A GIS is a form of database in which every item of data is linked to a spatial location. This technology offers unparalleled opportunities to add insight and rejuvenate historical research through the ability to identify and use the geographical characteristics of data. Historical GIS introduces the basic concepts and tools underpinning GIS technology, describing and critically assessing the visualisation, analytical and e-science methodologies that it enables and examining key scholarship where GIS has been used to enhance research debates. The result is a clear agenda charting how GIS will develop as one of the most important approaches to scholarship in historical geography.

From reader reviews:

Juan Farley:

In this 21st one hundred year, people become competitive in every single way. By being competitive currently, people have to do something to make these individuals survive, being in the middle of typically the crowded place and notice simply by surrounding. One thing that often many people have underestimated that for a while is reading. Yep, by reading a guide your ability to survive increases then having a chance to remain than other is high. For you personally who want to start reading a book, we give you this particular Historical GIS: Technologies, Methodologies, and Scholarship (Cambridge Studies in Historical Geography) book as beginning and daily reading publication. Why, because this book is more than just a book.

Eric Hempel:

People live in this new day time of lifestyle always attempt to and must have the spare time or they will get wide range of stress from both everyday life and work. So, whenever we ask do people have free time, we will say absolutely of course. People is human not a robot. Then we consult again, what kind of activity do you have when the spare time coming to you actually of course your answer will probably be unlimited right. Then ever try this one, reading ebooks. It can be your alternative with spending your spare time, the book you have read will be Historical GIS: Technologies, Methodologies, and Scholarship (Cambridge Studies in Historical Geography).

Kathryn Hebert:

Your reading sixth sense will not betray a person, why because this Historical GIS: Technologies, Methodologies, and Scholarship (Cambridge Studies in Historical Geography) guide written by well-known writer who knows well how to make a book that can be understood by anyone who else reads the book. Written throughout good manner for you, leaking every idea and composing skill only for eliminate your current hunger then you still question Historical GIS: Technologies, Methodologies, and Scholarship (Cambridge Studies in Historical Geography) as good book not just by the cover but also from the content. This is one guide that can break don't assess book by its include, so do you still need another sixth sense to pick this specific!? Oh come on your looking at sixth sense already alerted you so why you have to listening to an additional sixth sense.

Donald Lee:

Reading a book to become new life style in this calendar year; every people loves to go through a book. When you learn a book you can get a great deal of benefit. When you read publications, you can improve your knowledge, due to the fact book has a lot of information in it. The information that you will get depend on what sorts of book that you have read. If you would like get information about your study, you can read education books, but if you want to entertain yourself you can read a fiction books, these kinds of us novel, comics, as well as soon. The Historical GIS: Technologies, Methodologies, and Scholarship (Cambridge

Studies in Historical Geography) offer you a new experience in studying a book.
