Principles of Metal Surface Treatment and Protection: Pergamon International Library of Science, Technology, Engineering and Social Studies: International Series on Materials Science and Technology D. R. Gabe

Principles of Metal Surface Treatment and Protection deals with the principles of metal surface treatment and protection. Topics covered range from electrodeposition and hot dip coating to diffusion and non-metallic coatings, as well as oxide and conversion coatings. The theory of corrosion protection is also discussed.

Comprised of eight chapters, this volume begins with an overview of the corrosion of metals and the scope of protection against corrosion, followed by a detailed treatment of electrodeposition. The discussion then turns to the principles of hot dipping as a coating method; the formation of a diffusion coating; and the role of a non-metallic coating in corrosion protection. Subsequent chapters focus on the protection of oxide films against corrosion by means of anodizing, phosphatizing, and the use of tin free steel; testing and selection of a particular coating for corrosion resistance applications; and the theory of corrosion protection.

This book is intended for metal-finishing scientists and students of metallurgy and metal finishing.

From reader reviews:

Jeanne Crank:

Why don't make it to become your habit? Right now, try to prepare your time to do the important behave, like looking for your favorite book and reading a book. Beside you can solve your trouble; you can add your knowledge by the book entitled Principles of Metal Surface Treatment and Protection: Pergamon International Library of Science, Technology, Engineering and Social Studies: International Series on Materials Science and Technology. Try to make the book Principles of Metal Surface Treatment and Protection: Pergamon International Library of Science, Technology, Engineering and Social Studies: International Series on Materials Science and Technology as your pal. It means that it can to become your friend when you truly feel alone and beside that course make you smarter than in the past. Yeah, it is very fortunated to suit your needs. The book makes you considerably more confidence because you can know every thing by the book. So , we need to make new experience as well as knowledge with this book.

Patricia French:

In other case, little men and women like to read book Principles of Metal Surface Treatment and Protection: Pergamon International Library of Science, Technology, Engineering and Social Studies: International Series on Materials Science and Technology. You can choose the best book if you want reading a book. As long as we know about how is important a book Principles of Metal Surface Treatment and Protection: Pergamon International Library of Science, Technology, Engineering and Social Studies: International Series on Materials Science and Technology. You can add understanding and of course you can around the world by way of a book. Absolutely right, since from book you can recognize everything! From your country until foreign or abroad you will end up known. About simple matter until wonderful thing you are able to know that. In this era, we are able to open a book or even searching by internet product. It is called e-book. You may use it when you feel fed up to go to the library. Let's read.

Martha Howell:

Book is to be different for every grade. Book for children until finally adult are different content. As it is known to us that book is very important normally. The book Principles of Metal Surface Treatment and Protection: Pergamon International Library of Science, Technology, Engineering and Social Studies: International Series on Materials Science and Technology was making you to know about other understanding and of course you can take more information. It is very advantages for you. The guide Principles of Metal Surface Treatment and Protection: Pergamon International Library of Science, Technology, Engineering and Social Studies: International Series on Materials Science and Technology is not only giving you much more new information but also to become your friend when you really feel bored. You can spend your own personal spend time to read your guide. Try to make relationship with the book Principles of Metal Surface Treatment and Protection: Pergamon International Library of Science, Technology, Engineering and Social Studies: International Series on Materials Science and Technology. You never truly feel lose out for everything in case you read some books.

Daniel Hutchison:

Do you have something that you enjoy such as book? The guide lovers usually prefer to pick book like comic, brief story and the biggest one is novel. Now, why not attempting Principles of Metal Surface Treatment and Protection: Pergamon International Library of Science, Technology, Engineering and Social Studies: International Series on Materials Science and Technology that give your satisfaction preference will be satisfied by reading this book. Reading practice all over the world can be said as the opportunity for people to know world considerably better then how they react when it comes to the world. It can't be mentioned constantly that reading routine only for the geeky individual but for all of you who wants to end up being success person. So , for every you who want to start studying as your good habit, it is possible to pick Principles of Metal Surface Treatment and Protection: Pergamon International Library of Science, Technology, Engineering and Social Studies: International Series on Materials Science and Technology become your own personal starter.
