Telemonitoring - mobile Datenerfassung am Patienten (German Edition)

Christian Kunzendorf

Telemonitoring - mobile Datenerfassung am Patienten (German Edition) Christian Kunzendorf
Studienarbeit aus dem Jahr 2006 im Fachbereich Informatik - Internet, neue Technologien, Note: 1,7,
Universität der Künste Berlin (Institute of Electronic Business), Veranstaltung: Mobile Business, 17 Quellen
im Literaturverzeichnis, Sprache: Deutsch, Abstract: Diese Arbeit beschäftigt sich mit der mobilen
Datenerfassung an Patienten. Dieses Themen-feld wird auch als TeleMonitoring bezeichnet und ist ein
Teilbereich der TeleMedizin. Unter Telemedizin lässt sich der „Einsatz von Telematik zur Überwindung
einer räumlichen Tren-nung zwischen Patient und Arzt oder zwischen mehreren behandelnden Ärzten“
verstehen. Somit ist TeleMonitoring „die telemedizinische Überwachung chronisch erkrankter oder früh-
zeitig aus der stationären Behandlung entlassener Patienten in deren häuslichem Umfeld.“ Mit Blick auf den
Wunsch nach Mobilität trotz einer Erkrankung und der damit verbundenen Lebensqualität bleibt
TeleMonitoring allerdings nicht nur auf das häusliche Umfeld be-schränkt. Eine ständige Überwachung der
Vitalparameter an jedem Ort und zu jedem Zeit-punkt gilt es als Ziel zu erreichen. In diesem Zusammenhang
wird auch häufig von Mobile Health gesprochen. Mobile-Health ermöglicht, neben der mobilen
Datenerfassung, vor allem auch „die Online-Interaktion zwischen Ärzten, Patienten und weiteren relevanten
Berufs-gruppen. Verwendet werden dabei mobile Endgeräte, wie Mobiltelefon, PDA, Notebooks und vor
allem drahtlose Übertragungstechniken in allen Bereichen des Gesundheitswesens.“ Die Begriffe
TeleMonitoring und Mobile Health sind thematisch gleichwertig, im Folgenden soll jedoch nur der Begriff
TeleMonitoring verwendet werden.

From reader reviews:

Myra Lopez:

As people who live in the actual modest era should be up-date about what going on or information even knowledge to make these people keep up with the era which can be always change and advance. Some of you maybe will probably update themselves by reading books. It is a good choice in your case but the problems coming to you is you don't know what type you should start with. This Telemonitoring - mobile Datenerfassung am Patienten (German Edition) is our recommendation so you keep up with the world. Why, as this book serves what you want and wish in this era.

Tom Scott:

This Telemonitoring - mobile Datenerfassung am Patienten (German Edition) usually are reliable for you who want to be described as a successful person, why. The explanation of this Telemonitoring - mobile Datenerfassung am Patienten (German Edition) can be on the list of great books you must have will be giving you more than just simple looking at food but feed you actually with information that probably will shock your previous knowledge. This book is handy, you can bring it everywhere you go and whenever your conditions at e-book and printed ones. Beside that this Telemonitoring - mobile Datenerfassung am Patienten (German Edition) giving you an enormous of experience for example rich vocabulary, giving you tryout of critical thinking that could it useful in your day activity. So , let's have it and enjoy reading.

Clarence Hamm:

Spent a free time for you to be fun activity to try and do! A lot of people spent their free time with their family, or all their friends. Usually they performing activity like watching television, going to beach, or picnic inside park. They actually doing same task every week. Do you feel it? Do you need to something different to fill your free time/ holiday? Might be reading a book is usually option to fill your free time/ holiday. The first thing that you will ask may be what kinds of reserve that you should read. If you want to try look for book, may be the publication untitled Telemonitoring - mobile Datenerfassung am Patienten (German Edition) can be fine book to read. May be it is usually best activity to you.

Courtney Cook:

As a pupil exactly feel bored to help reading. If their teacher requested them to go to the library in order to make summary for some book, they are complained. Just tiny students that has reading's internal or real their hobby. They just do what the trainer want, like asked to the library. They go to at this time there but nothing reading significantly. Any students feel that studying is not important, boring and can't see colorful photographs on there. Yeah, it is to become complicated. Book is very important for yourself. As we know that on this period of time, many ways to get whatever you want. Likewise word says, many ways to reach Chinese's country. Therefore , this Telemonitoring - mobile Datenerfassung am Patienten (German Edition) can make you feel more interested to read.
