Fighting Terror Online: The Convergence of Security, Technology, and the Law Martin Charles Golumbic

This book presents the position that the online environment is a significant and relevant theater of activity in the fight against terror. It identifies the threats, the security needs, and the issues unique to this environment. The book examines whether the characteristics of this environment require new legal solutions, or whether existing solutions are sufficient. Three areas of online activity are identified that require reexamination: security, monitoring, and propaganda.
