Cases in Climate Change Policy Ragnar E. Lofsted, Ragnar E Löfstedt

This volume examines case studies on EU countries' policy to combat climate change, examining the constraints of and opportunities for the implementation of climate change strategies in these countries. The introductory section provides an overview of the climate change problem and its potential effects, examining the roles of different greenhouse gases, the main emission sources, the likely consequences of climate change and the scope for abatement and adaptation. The second part consists of six detailed case studies on diverse national strategies. The book concludes with a comparative analysis of the findings of the case studies, and suggestions for approaches to implement emission reduction strategies.
