Expediciones matemáticas (Fuera de colección) (Spanish Edition) Frank J. Swetz

La aventura de los problemas matemáticos a través de la Historia

Expediciones matemáticas es una amena selección de más de quinientos problemas de diferentes épocas y civilizaciones, los primeros de ellos grabados en tablillas de arcilla por escribas babilonios, conservados en papiros egipcios o en cortezas de árbol en la antigua India. Desde Mesopotamia hasta Grecia, pasando por China, Arabia, la Italia del Renacimiento o la Inglaterra victoriana, los problemas que recorren estas páginas abarcan una gran variedad de culturas y formas de entender esta ciencia.

Gracias a ellos, Swetz nos muestra la historia y desarrollo de las matemáticas en todo el mundo. Y, al hacerlo, nos habla de los distintos conocimientos que sobre dicha materia poseía cada cultura y del modo en que llegaron a conseguirlos, proporcionando así a los profesores actuales un modo maravilloso de introducir unas matemáticas interculturales en las aulas de la escuela secundaria, el bachillerato y la universidad.

«La selección de Swetz es variada y perspicaz. Los problemas que ha escogido proporcionan un modo vívido y atractivo de incorporar la Historia a las clases de matemáticas».

Amy Schell-Gellasch

Frank J. Swetz es catedrático emérito de matemáticas y educación de la Pennsylvania State University. Entre sus numerosos libros destacan *Activities from the History of Mathematics*, *Five Fingers to Infinity: A Journey through the History of Mathematics* y *Capitalism and Arithmetic: The New Maths of the 15th Century*.
