La devianza in adolescenza: Prevenzione e intervento (Aspetti della psicologia) (Italian Edition) Chiara A. Ripamonti

Molti sono i modelli che hanno cercato di spiegare la devianza minorile, un problema fra i più sentiti a livello sociale. Questo volume offre una visione della devianza in adolescenza secondo un'ottica integrata che considera le variabili biopsicosociali implicate nel fenomeno. Dopo un'analisi delle origini del comportamento antisociale e dei fattori di rischio e protezione, vengono presentate le diverse manifestazioni di tale comportamento, dal bullismo all'antisocialità conclamata, ed è illustrata una serie di modelli d'intervento che, sostenuti dai risultati delle ricerche empiriche, sono suscettibili di offrire un valido aiuto in termini di prevenzione e gestione delle situazioni di crisi.
