Women, Activism and Social Change: Stretching Boundaries (Routledge Research in Gender and Society)

Women, Activism and Social Change: Stretching Boundaries (Routledge Research in Gender and Society)

Throughout history, women have participated in and sometimes initiated rebellions to defend the welfare of their family, community, class, race or ethnic group.

This volume presents original research on women's activism in Asia, Europe, Australia and Latin America. It explores how women have advanced social change and their influence on, and response to, existing transformations in society. Using an interdisciplinary approach, the authors examine women's activities and conditions in diverse social and political contexts, from revolutionary societies, to status quo societies, to societies in decline. With its primary focus on agency and social change, this book deconstructs patriarchal discourses and unearths aspects of female agency in an array of cultural, historical and geopolitical contexts. Chapters on movements in China, Japan, Australia, Croatia, Russia and a range of other countries both contribute to our understanding of change in those societies and seek to locate women at the center of politically aware movements. Although not exclusively a book about feminist activism, this essential collection is motivated by the feminist desire to restore to history a range of women's experiences.

This book introduces new ways of thinking across boundaries, identities and complexities in a still essentially patriarchal world. It will be of great interest to students and researchers in the fields of gender studies, activism and comparative politics.
