U.S. Foreign Policy and the Four Horsemen of the Apocalypse: Humanitarian Relief in Complex Emergencies (Washington Papers (Paperback)) Andrew S. Natsios

This book explores the emerging phenomenon of complex humanitarian emergencies and the evolving policies of the United States in responding to these emergencies. In addition, Andrew Natsios examines the relationship of disaster response to U.S. foreign policy and national interest, and makes suggestions for improving both relief strategies and systems for designing those strategies.

To these issues Natsios brings his first-hand experience in numerous key positions. Mr. Natsios provides case study analysis from these experiences over the past five years to illustrate the arguments presented in the book, particularly regarding Somalia, Angola, Sudan, Panama, and Kuwait and Kurdistan following the Gulf War. As former president George Bush indicates in his foreword to the volume, this book will make a substantive contribution to continuing and enhancing vitally important work. Of great interest to scholars, researchers, and policy makers in the areas of contemporary American foreign policy and humanitarian activities abroad.
