## A Case for Theistic Evolution: A Zondervan Digital Short Howard J. Van Till

Derived from *Three Views on Creation and Evolution*, this digital short argues that Christians need not oppose evolution and that God in fact created the world through evolutionary processes. More specifically, Van Till proposes a position called *fully gifted creation*, which he defines as the understanding that God created the natural world with a built-in capacity to develop and evolve. With thorough attention paid to the philosophical, scientific, theological, and practical implications of the viewpoint, *A Case for Theistic Evolution* will be useful both to readers wanting a basic introduction to theistic evolution and to those wanting to more deeply consider their own convictions regarding it.
