Blush: This is a suggestive romance (love scenes are not graphic) It's New York City, way way in the future and many things have changed — like the legalization of sex for hire and the popularity of the undead in the world's oldest profession. Conversely, the unreliability of males, immortal or human, remains a constant, or at least that's what Detective Tess Monterey has deduced after a particularly painful breakup with her partner and secret lover. While investigating an apparent sex slaying, the trail leads to Blood Bytes — the city's only online vampire agency, and its most sought-after supernatural stud, Devante Matiero. The last person to see the victim alive, Matiero quickly rises to the top of Tess' most wanted list — in more ways than one. Tess wades through a series of suspects and clues, along with her own distracting desires, desperately trying to close the case while holding onto her new-found stay-away-from-love conviction. But as she is destined to discover, things are not always as they appear. And not all good intentions pave the road to hell — some actually overlay the way to heaven. Reader Advisory: Contains light bondage scenes.
