**Breve storia dell'ambiente in Italia (Universale paperbacks Il Mulino) (Italian Edition)** Gabriella Corona

Il libro delinea le trasformazioni degli assetti ambientali in Italia e il modo in cui si sono intrecciate ai più generali mutamenti economici, politici e sociali. Uno scenario che negli ultimi decenni ha visto l'accentuarsi di fenomeni come il dissesto idrogeologico e il consumo di suolo, il peggioramento della qualità della vita nelle aree metropolitane, la scomparsa di aree di pregio, come pure le emergenze legate ai rifiuti, l'inquinamento marino e atmosferico. Molti problemi sono legati alle caratteristiche geomorfologiche del paese, ma è vero che sulla situazione italiana gravano scelte discutibili compiute dalle classi dirigenti dell'Italia unita.
