The zombie apocalypse will be pedal-powered! In the not-so-distant future, when gasoline is no longer available, humans turn to two-wheeled vehicles to transport goods, seek glory, and defend their remaining communities. In another version of the future, those with the zombie virus are able to escape persecution and feel almost alive again on two wheels. In yet another scenario, bicycles themselves are reanimated and roam the earth. In the third volume of annual feminist bicycle science fiction series Bikes in Space, twelve talented writers bring their diverse visions to this volume: Sometimes scary, sometimes spooky, sometimes hilarious, always on two wheels.
