Information Warfare in Business: Strategies of Control and Resistance in the Network Society (Routledge Studies in Business Organizations and Networks) Iain Munro

Information Warfare in Business provides a significant and interesting perspective on the concept of the network organization. It illustrates the relations between information technology and organization, and in particular, between business organizations and the recent revolution in military affairs that has been called 'information warfare'. The main themes discussed include the network society, knowledge management, nomadic strategy, information warfare, power and identity.
