**Dune Country: A Naturalist's Look at the Plant Life of Southwestern Sand Dunes** Janice Emily Bowers  
Contrary to public perception, sand dunes are not barren piles of sand. They are alive with plant life. The dunes themselves even move, sometimes several inches a year. In *Dune Country* Janice Emily Bowers takes readers from New Mexico's White Sands to Utah's Coral Pink Dunes to the Death Valley dunes of California and beyond. Beautifully written and illustrated, *Dune Country* is a perfect introduction to the fragile ecosystems of sand dunes.
