On September 2, 1945, surrender ceremonies officially ending World War II were broadcast worldwide from the deck of the USS Missouri. The ceremony also marked the end of one of the most eventful years for any vessel in the history of warfare. *USS Missouri at War* chronicles the career of this mighty warship, the last battleship built by the United States.

Veteran naval historian Kit Bonner describes "Mighty Mos" powerful strikes against Japan, its support of the Iwo Jima landings and bombardment of Okinawa, and its decisive role in the destruction of key Japanese industrial targets. That war was over, but the Missouri was not done yet; and Bonner follows her service in the Korean War, her modernization and reactivation for the 1991 Gulf War, and her final decommissioning in 1992, with eleven battle stars to her credit.

For its authoritative and close-up look at the life and work of a world-class battleship, and for its insight into the history of twentieth-century naval warfare, this strikingly illustrated book is one that no naval enthusiast or military history buff will want to be without.
