Fundamental Formulas of Physics, Volume One: 001 (Dover Books on Physics)

Fundamental Formulas of Physics, Volume One: 001 (Dover Books on Physics)

The republication of this book, unabridged and corrected, fills the need for a comprehensive work on fundamental formulas of mathematical physics. It ranges from simple operations to highly sophisticated ones, all presented most lucidly with terms carefully defined and formulas given completely. In addition to basic physics, pertinent areas of chemistry, astronomy, meteorology, biology, and electronics are also included.

This is no mere listing of formulas, however. Mathematics is integrated into text, for the most part, so that each chapter stands as a brief summary or even short textbook of the field represented. The book, therefore, fills other needs than the primary function of reference and guide for research. The student will find it a handy review of familiar fields and an aid to gaining rapid insight into the techniques of new ones.

The teacher will study it as a useful guide to a broad concept of physics. The chemist, astronomer, meteorologist, biologist, and engineer will not only derive valuable aid from their special chapters, but will understand how their specialty fits into the large scheme of physics.

Vol. 1 chapter titles: Basic Mathematical Formulas, Statistics, Nomograms, Physical Constants, Classical Mechanics, Special Theory of Relativity, The General Theory of Relativity, Hydrodynamics and Aerodynamics, Boundary Value Problems in Mathematical Physics, Heat and Thermodynamics, Statistical Mechanics, Kinetic Theory of Gases: Viscosity, Thermal Conduction, and Diffusion, Electromagnetic Theory, Electronics, Sound and Acoustics.

Vol. 2 chapter titles: Geometrical Optics, Physical Optics, Electron Optics, Molecular Spectra, Atomic Spectra, Quantum Mechanics, Nuclear Theory, Cosmic Rays and High-Energy Phenomena, Particle Accelerators, Solid State, Theory of Magnetism, Physical Chemistry, Basic Formulas of Astrophysics, Celestial Mechanics, Meteorology, Biophysics.

From reader reviews:

Peter Zimmerman:

The book with title Fundamental Formulas of Physics, Volume One: 001 (Dover Books on Physics) has a lot of information that you can discover it. You can get a lot of gain after read this book. This particular book exist new know-how the information that exist in this reserve represented the condition of the world today. That is important to yo7u to be aware of how the improvement of the world. This particular book will bring you inside new era of the globalization. You can read the e-book in your smart phone, so you can read this anywhere you want.

Steven Ward:

Many people spending their period by playing outside having friends, fun activity with family or just watching TV all day every day. You can have new activity to shell out your whole day by reading through a book. Ugh, ya think reading a book can definitely hard because you have to use the book everywhere? It all right you can have the e-book, getting everywhere you want in your Smartphone. Like Fundamental Formulas of Physics, Volume One: 001 (Dover Books on Physics) which is obtaining the e-book version. So , why not try out this book? Let's view.

Noah Gardner:

As we know that book is very important thing to add our knowledge for everything. By a reserve we can know everything you want. A book is a range of written, printed, illustrated as well as blank sheet. Every year was exactly added. This e-book Fundamental Formulas of Physics, Volume One: 001 (Dover Books on Physics) was filled with regards to science. Spend your free time to add your knowledge about your scientific research competence. Some people has different feel when they reading the book. If you know how big selling point of a book, you can really feel enjoy to read a guide. In the modern era like now, many ways to get book that you wanted.

Kimberly Mason:

A lot of people said that they feel bored stiff when they reading a reserve. They are directly felt this when they get a half elements of the book. You can choose the particular book Fundamental Formulas of Physics, Volume One: 001 (Dover Books on Physics) to make your own personal reading is interesting. Your own personal skill of reading talent is developing when you including reading. Try to choose simple book to make you enjoy to study it and mingle the feeling about book and looking at especially. It is to be 1st opinion for you to like to available a book and read it. Beside that the guide Fundamental Formulas of Physics, Volume One: 001 (Dover Books on Physics) can to be your friend when you're truly feel alone and confuse using what must you're doing of these time.
