## **Catch Up Chemistry, second edition: For the Life and Medical Sciences** Mitch Fry, Elizabeth Page

If you are about to study for a degree in the life or medical sciences, you will need to understand some core facts and concepts in chemistry. You do not need to be a budding chemist but you do need to be comfortable with chemical terms and principles.

*Catch up Chemistry*, second edition, will bring you up to speed with the subject and will lay the foundations of chemistry in those topics that will underpin your studies, such as:

- the nature of atomic structure and molecular bonding;
- the properties of biological molecules and macromolecules;
- the gas laws;
- the special properties of water;
- thermodynamic concepts in biology;
- biological transport mechanisms and transporters;
- understanding reaction mechanisms and kinetics;
- deriving energy from molecules;

At every stage the authors remind you of the relevance of this chemistry to your life or medical sciences course - this is not just chemistry for the sake of it. The book also contains a lot of questions (and answers), so that you can test your understanding at any time - it really does get easier with practice!
