High Dependency Nursing Care: Observation, Intervention and Support for Level 2 Patients Tina Moore, Philip Woodrow

Level 2 (highly dependent) patients are nursed in a variety of clinical areas. *High Dependency Nursing Care* has been written for pre qualified and post qualified students undertaking modules and placements to prepare them for nursing the acutely ill and nurses caring for these patients. Written by a team of nurses experienced in providing, supporting and developing high dependency care, it discusses practical issues and explores the current evidence base for clinical practice.

This essential textbook covers the context of care with chapters on fundamental aspects, such as sleep, nutrition, pain management and stress. It goes on to look at the main causes of critical illness and the treatments often given, as well as the skills necessary for monitoring patients. Completely updated throughout, this second edition also includes new chapters on infection control, heart failure, tissue removal and transferring the sicker patient.

High Dependency Nursing Care is:

Comprehensive: it covers all the key areas of knowledge needed

User-friendly: it includes learning outcomes, introductions, time out exercises, implications for practice, useful websites and up-to-date references

Clearly written: by a team of experienced nurses

Practically based: clinical scenarios provide stimulating discussion and revision topics

From reader reviews:

Steven Stockton:

As people who live in the particular modest era should be update about what going on or details even knowledge to make these people keep up with the era that is always change and make progress. Some of you maybe can update themselves by reading through books. It is a good choice for you but the problems coming to anyone is you don't know what kind you should start with. This High Dependency Nursing Care: Observation, Intervention and Support for Level 2 Patients is our recommendation to make you keep up with the world. Why, because this book serves what you want and need in this era.

Karen Wells:

The book High Dependency Nursing Care: Observation, Intervention and Support for Level 2 Patients has a lot of information on it. So when you check out this book you can get a lot of gain. The book was compiled by the very famous author. Mcdougal makes some research ahead of write this book. This specific book very easy to read you can find the point easily after scanning this book.

Joan Freeman:

Why? Because this High Dependency Nursing Care: Observation, Intervention and Support for Level 2 Patients is an unordinary book that the inside of the e-book waiting for you to snap the item but latter it will shock you with the secret it inside. Reading this book close to it was fantastic author who else write the book in such awesome way makes the content interior easier to understand, entertaining means but still convey the meaning completely. So , it is good for you for not hesitating having this anymore or you going to regret it. This excellent book will give you a lot of positive aspects than the other book have such as help improving your proficiency and your critical thinking approach. So , still want to postpone having that book? If I had been you I will go to the e-book store hurriedly.

James Fox:

Is it you who having spare time after that spend it whole day through watching television programs or just resting on the bed? Do you need something totally new? This High Dependency Nursing Care: Observation, Intervention and Support for Level 2 Patients can be the reply, oh how comes? A fresh book you know. You are thus out of date, spending your time by reading in this fresh era is common not a nerd activity. So what these publications have than the others?
